Fractional Leadership

About our Fractional Leadership

Executive Oversight Without the Full-Time Overhead

At My OpsBox, we know that running a business means navigating unfamiliar terrain every day. From growth curves and cash flow to compliance and hiring, the road to success isn't always paved. That's why we offer Fractional Leadership services—giving you access to high-level strategic guidance without the cost or commitment of a full-time executive team.

We offer two powerful options:

- **My OpsBoxEdge** gives you the freedom to choose one of seven seasoned Fractional Chief Officers (fCOO, fCEO, fCFO, fCIO, fCTO, fCHRO, fCRO, or fCPO) to add targeted executive support where you need it most.
- **My OpsBoxPro** delivers a fully equipped C-Suite bundle—typically including a fCOO, fCFO, fCHRO, and your choice of fCIO or fCPO—for a more integrated approach to high-level leadership and cross-functional planning.

Every level of My OpsBox already includes a Fractional COO for operational strategy and support. But when your business hits a new trail—whether it's scaling, restructuring, or launching something new—you may need more horsepower. That's where these flexible add-ons and bundles come in. You can add a single expert, build your own executive suite, or upgrade to a full leadership package.

Our fractional leaders don't clock in and out—they check in where it counts. You'll meet monthly for 1:1 strategy sessions, with behind-the-scenes preparation and follow-up that brings clarity and traction to your vision.

What they do:

- One-on-one strategy session each month, plus behind-the-scenes support to keep things moving between meetings.
- Expert guidance and accountability from experienced Fractional Chiefs who specialize in small business growth.
